DECLARATION OF CONFORMITY

January 2022

**FOR OUR CRYSTAL GLASSWARE BRANDED
NACHTMANN AND SPIEGELAU**

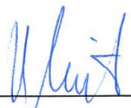

We hereby certify that Nachtmann and Spiegelau tableware products are first quality and designed for use with beverages and food in conformity with international safety regulations.

Our crystal glassware complies with the requirements of
International Standard Organization (ISO) regulation 7086-2
(Permissible limits of lead and cadmium release from glass hollowware).

The components of our crystal glass are siliceous sand, soda, limestone and at least 10% metallic oxides to meet the chemical and physical requirements for "crystal glass".
All raw materials are chemically tested and physically inspected before production.

Quality controls of products are performed in lots similar to **ISO 2859** rules.
Our products comply with **European Union Regulations 1935-2004** and **2023/2006**.
